RESPONSIBLY MANUFACTURED IN AUSTRIA / EUROPE

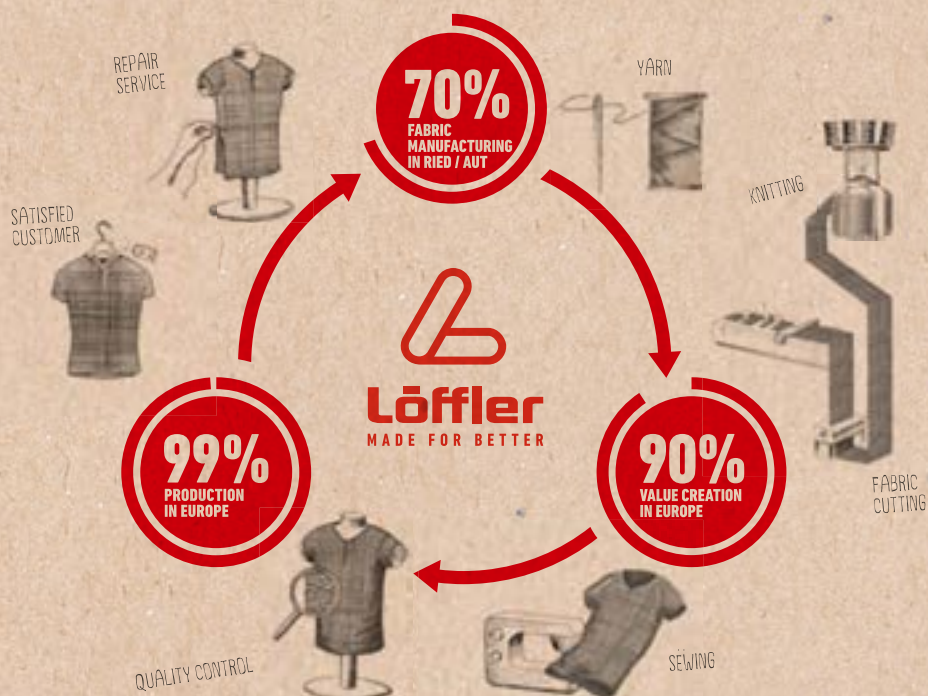

LÖFFLER is not only a brand, but also a producer, with a high vertical integration:

Manufacturing steps such as product development and design, knitting, cutting, printing and assembly through sewing work to final inspection, storage and shipping are still carried out in Austria!

Around 70% of all fabrics from which we produce high quality LÖFFLER products come from our own knitting factory in Ried im Innkreis, Austria.

More than 90% of our spending remains within Europe.

Necessary accessories (e.g. gloves) that are no longer available in Europe must be purchased globally. This concerns about 1% of the products.

ENVIRONMENTALLY FRIENDLY PRODUCER

LÖFFLER's own operations are climate-neutral.

We compensate for all CO2 emissions that cannot yet be avoided for the time being (e.g. fuel for company vehicles) by supporting certified climate protection projects.

72% of the energy used by LÖFFLER already comes from renewable sources. Trend strongly increasing.

 **Klimaneutral**
Unternehmen
ClimatePartner.com/14987-2008-1001

REGIONAL PRODUCTION, SOURCING AND DISTRIBUTION

LÖFFLER produces itself in Austria and Bulgaria and procures goods and services almost exclusively within Europe (around 99%). This ensures legal certainty and strengthens the European internal market. Regional production and procurement in or close to our sales markets also indirectly strengthens the purchasing power of our customers and also reduces transport volumes.

ON TOP OF TOP SPORTS

World champions and winners wear LÖFFLER. We are proud of that. LÖFFLER has been a partner of top-class sports for decades, e.g. as the official supplier of the ÖSV (Austrian Nordic Ski Team) and the DSV (German Nordic Ski Team).

TALKING PIECE WINDFLEECE

- + Soft, thermal-regulating 3D-Techfleece
- + Lightweight, breathable
- + Frontside and hood doubled with Windshell
- + Windproof, water-repellent, suitable for backpacks
- + Small packing volume, low weight
- + Attached hood
- + Underlaid front zip
- + Zipped chest pocket
- + Soft, elastic cuffs and waist band

Midlayer specially designed for ski touring, which can also be worn as a toplayer in warmer temperatures. During sweaty ascents, the full-zip hoody functions as a thermo-regulator. At the same time, it shields you from the biting wind and prevents your upper body from cooling down. When the work is done, the midlayer can be rolled up to the smallest pack size and stowed in the backpack, where it hardly weighs a thing. Lightweight - practical - good.

BIKE RAIN JACKET PRIMALOFT®

It is an excellent alternative to softshell jackets, the PrimaLoft® Active Bike Jacket. It provides excellent warmth, keeps the wind out, is waterproof and, thanks to the transtex® inner lining, is particularly breathable. And all of this with a minimalist weight and very small pack size. In addition, numerous reflectors ensure good visibility in traffic.

- + WPM Pocket 2,5-layer outer material
- + With 75 grams PrimaLoft®Active insulation
- + Inner lining made of transtex® Light
- + Sealed seams
- + Wind- and waterproof
- + Thermal insulating, breathable
- + Lightweight
- + Reflective, underlaid front zipper
- + Zipped back pocket
- + Extended back
- + Cuffs and waist with a reflective elastic band
- + Reflectors

TRANSTEX®

MERINO

OEKO-TEX®
CONFIDENCE IN TEXTILES
STANDARD 100
29605 OeTI
Tested for harmful substances.
www.oeko-tex.com/standard100

For its merino underwear, LÖFFLER relies on a two-layer combination with polypropylene on the inside and merino wool on the outside. This transtex® knit construction has been convincing in numerous product tests for years. The system also works excellently during sweat-intensive activities. While the shirt still feels damp on the outside, you have a dry feeling on the skin. Comfortable to wear, kind to the skin, temperature regulating, breathable, warm, odourless, merino underwear is ideal for very cold days and for stop & go activities.

The new, enhanced transtex® Merino knitting technology now has a higher wool content and thus a higher grammage.

transtex® functional underwear, very successfully used in top-class sport.

26175-979
W SET LONG TRANSTEX® MERINO

- + The warmest LÖFFLER underwear, new with higher wool content
- + Two-layer combination Merino wool with polypropylene
- + Best moisture transport and quick re-drying, breathable
- + Both fibres are odourless
- + Very lightweight, elastic
- + Pleasantly close fit
- + Fine ActiveSeam flat seams
- + Attractive, partially mottled look
- + Numerous awards for many years
- + Knitted by LÖFFLER in Austria

MADE IN AUSTRIA BY LÖFFLER

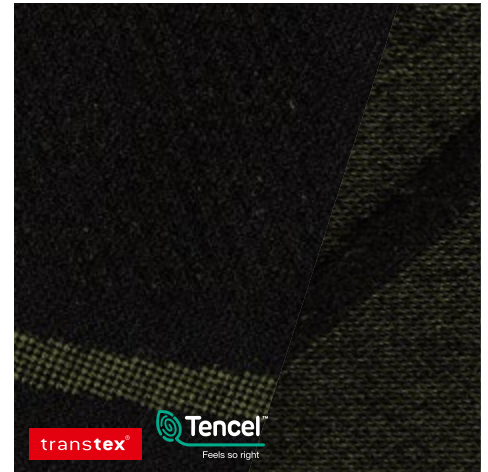

TRANSTEX® LIGHT PP

- » Lightweight 3D-knitted fabric
- » For highly athletic, anaerobic activities
- » Climate management due to moisture transport
- » Fast drying
- » Exclusively knitted in Ried

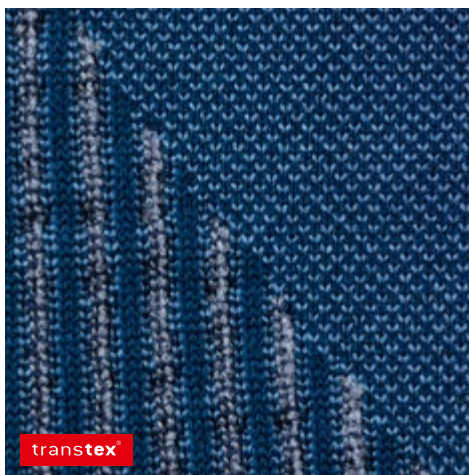

TRANSTEX® WARM PP/CMD/CO/EL

- » transtex® knitting technology, polypropylene inside, cotton/Modal outside
- » For sporting activities
- » Thermal insulating due to 2-layer construction
- » Climate management due to moisture transport
- » Fast drying
- » Exclusively knitted in Ried

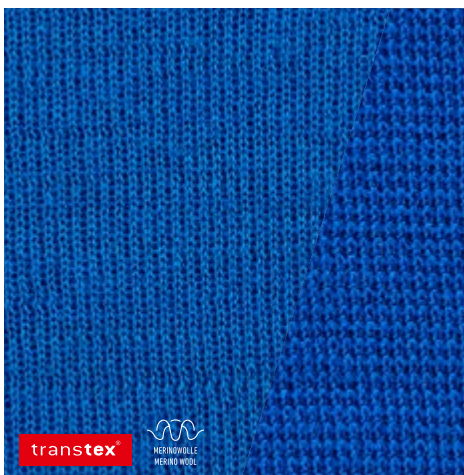

TRANSTEX® HYBRID PP/CLY/CO/PA/EL

- » 2-layer transtex® knitting technology with integrated functional zones
- » For sporting activities
- » Thermal insulating due to 2-layer construction
- » Climate management due to moisture transport
- » Fast drying
- » Exclusively knitted in Ried

TRANSTEX® ALPINE PP/PA/PES/EL

- » 2 layer transtex® knitting technology, with integrated functional zones
- » For highly athletic, anaerobic activities
- » Thermal insulating due to spacer fabric on the inner side
- » Climate management and moisture transport due to two-layer knitting
- » Fast drying
- » Exclusively knitted in Ried

TRANSTEX® MERINO NEW WO/PP

- » Enhanced transtex® knitting technology, polypropylene inside, Merino wool outside with higher grammage
- » For sporting activities
- » Thermal insulating due to 2-layer construction
- » Climate management due to moisture transport
- » Fast drying
- » Exclusively knitted in Ried

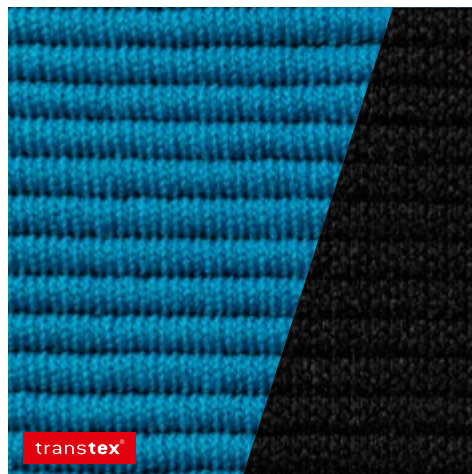

TRANSTEX® 3D WAFFLE PES/PP

- » transtex® 3D knitting technology, polypropylene inside, polyester outside
- » For sporting activities
- » Climate management due to fast moisture transport
- » Very fast drying due to waffle texture
- » Exclusively knitted in Ried

CO = Cotton | CMD = Modal | PA = Polyamide | PES = Polyester | PP = Polypropylene | PU = Polyurethane | PTFE = Polytetrafluorethylene | EL = Elastane |
WO = Wool | CLY = Lyocell/ TENCEL™ | PAC = Polyacryl | PE = Polyethylene

Nearly 70% of the used fabrics are knitted at Löffler's in-house knitting factory in Ried im Innkreis, marked with 

TRANSTEX® 3D RIB
PES/PP/EL

- » transtex® 3D knitting technology, polypropylene inside, polyester outside
- » For sporting activities
- » Climate management due to fast moisture transport
- » Very fast drying due to rib texture
- » Exclusively knitted in Ried

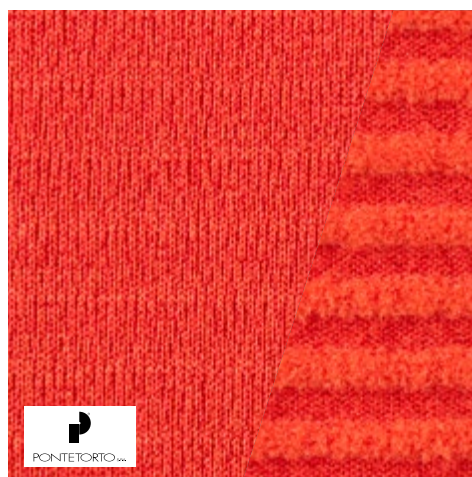

RACE ELASTIC WARM
PES/EL

- » Elastic single-layer knitted fabric
- » For highly athletic, anaerobic activities
- » Thermal insulating due to spacer fabric on the inner side
- » Fast drying
- » Exclusively knitted in Ried

THERMO-INNENVELOURS
PES/EL

- » Multi-elastic for a perfect fit
- » Roughened inside, thermal insulating
- » Pleasant wearing comfort
- » Breathable
- » Fast drying

TECHFLEECE
PES/EL

- » Soft 3D-techfleece
- » For highly athletic, anaerobic activities
- » Thermal management through interaction between fleeced rib structure and ventilation lines
- » Fast drying
- » Made in Italy

DIMPLE ELASTIC
PES/EL

- » 3D-dimple structure
- » Wind-tunnel tested
- » For highly athletic, anaerobic activities
- » Multi-elastic
- » Fast drying
- » Exclusively developed and knitted in Ried for the international top sport

ELASTIC
PA/EL

- » Multi-elastic for a perfect fit
- » For highly athletic, anaerobic activities
- » Durable
- » Fast drying
- » Exclusively knitted in Ried

**GORE-TEX ACTIVE
PES/PTFE/PA**

- » 3-layer-construction
- » For sporting activities
- » Extremely breathable (RET < 3,5 m² PA/W)
- » Guaranteed 100% water- and windproof (28.000 mm water column) due to PTFE-membranes
- » Water-repellent due to DWR treatment
- » Lightweight, soft, quiet with innovative C-KNIT™ technology

**WPM POCKET
PA/PUR**

- » Ultra-lightweight 2,5-layer laminate
- » For sporting activities
- » Water- and windproof (20.000 mm water column) with PU-membranes
- » Extremely breathable (MVTR 40.000 g/m²/24h)
- » Water-repellent due to PFC-free DWR treatment
- » Very small packing volume

**WPM-3
PA/PUR/PES**

- » Lightweight 3-layer laminate
- » For sporting activities
- » Water- and windproof (20.000 mm water column) with PU-membranes
- » Breathable (MVTR 30.000 g/m²/24h)
- » Water-repellent due to PFC-free DWR treatment
- » Resistant

**WINDSHELL ULTRALIGHT
PES**

- » Ultra-lightweight ripstop woven fabric
- » For highly athletic, anaerobic activities
- » Water-repellent due to PFC-free DWR treatment
- » Windproof
- » Very small packing volume

**PRIMALOFT® GOLD
PES**

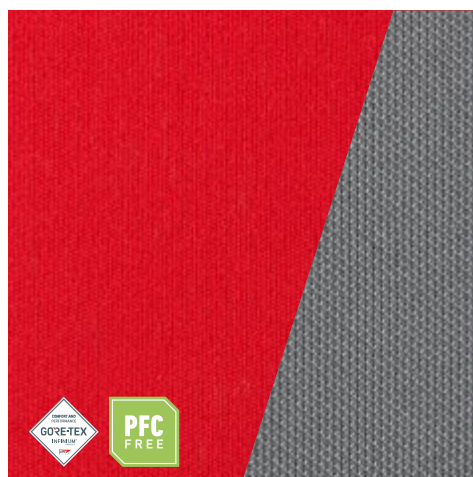

- » Ultra-fine, lightweight micro fibre fleece insulation material
- » For sporting activities
- » Small packing volume
- » Highly compressible, form stable
- » Wind- and water-repellent
- » Breathable
- » Fast drying used in activity
- » 100 % recycled material

**PRIMALOFT® ACTIVE
PES**

- » Ultra-fine, lightweight micro fibre fleece insulation material
- » For highly athletic, anaerobic activities
- » Effective thermal regulation with small volumes, thermal insulating
- » Highly breathable
- » Compressible
- » Fast drying used in activity
- » 58 % recycled material

CO = Cotton | CMD = Modal | PA = Polyamide | PES = Polyester | PP = Polypropylene | PU = Polyurethane | PTFE = Polytetrafluorethylene | EL = Elastane |
WO = Wool | CLY = Lyocell/ TENCEL™ | PAC = Polyacryl | PE = Polyethylene

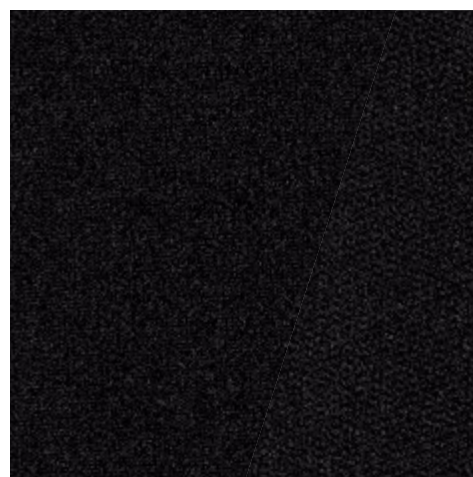

GORE-TEX INFINIUM™ WITH WINDSTOPPER® TECHNOLOGY
PA/EL/PTFE/PES

- » Lightweight 3-layer-soft shell
- » For sporting activities
- » Extremely breathable (RET < 6 m² PA/W)
- » 100% windproof
- » Water-repellent due to PFC_{EC}-free DWR treatment

TRANSTEX® SHELL
PA, PES, EL/PES/PP

- » Lightweight, extremely elastic 3-layer-soft shell
- » For sporting activities
- » Unique transtex® Light backer
- » Hydrophilic PES membranes
- » Absolutely windproof
- » Water-repellent due to PFC-free DWR treatment
- » Very breathable (RET 9 m² PA/W)

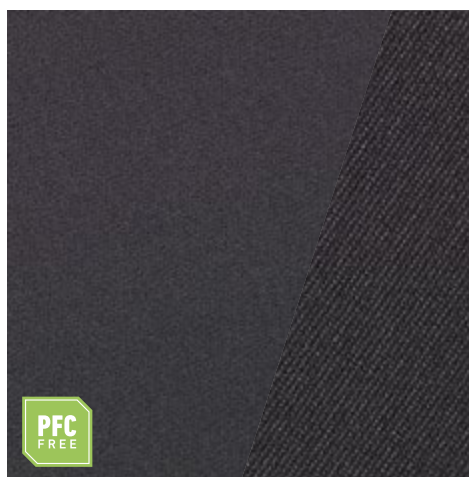

DOUBLE DRY
PA/EL

- » 2-layer knitted, multi-elastic
- » For highly athletic, anaerobic activities
- » Thermal management due to texture inside
- » Fast drying
- » Exclusively knitted in Ried

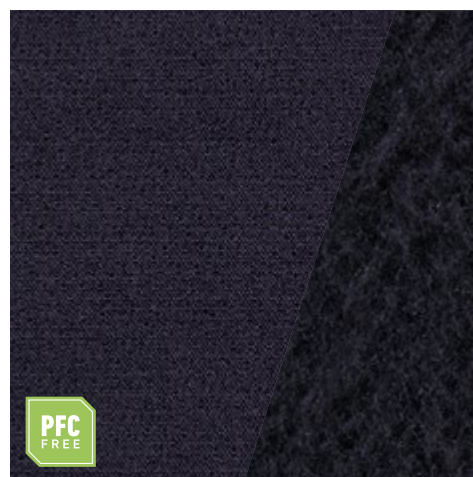

MICRO
PES/PA/EL

- » Lightweight woven micro fibres
- » For sporting activities
- » Wind- and water-repellent
- » Made in Europe

ACTIVE STRETCH
PA/EL

- » Double-weave fabric
- » For sporting activities
- » Thermal management due to woven texture inside
- » Thermal insulating and wind-repellent
- » Slightly water-repellent due to PFC-free treatment
- » Fast drying

ACTIVE STRETCH WARM
PA/EL

- » Double-weave fabric
- » For sporting activities
- » Thermal management due to woven texture inside
- » Roughened inside for additional thermal insulating
- » Wind-repellent
- » Slightly water-repellent due to PFC-free treatment
- » Fast drying

For the right cleaning of your LÖFFLER clothes please note the care labels on the individual articles. You can find an explanation of the symbols at www.loeffler.at.

TIGHT FIT

FOR PANTS AND TOPS

- + fits tight to the body
- + race ergonomic
- + athletically firm on the body
- + highly elastic
- + skinny

SLIM FIT

FOR PANTS, TOPS AND JACKETS

- + sporty, dynamic
- + shaping the figure
- + body-hugging waist
- + close-fitting waist
- + tailored to the sport
- + accompanies every movement

COMFORT FIT

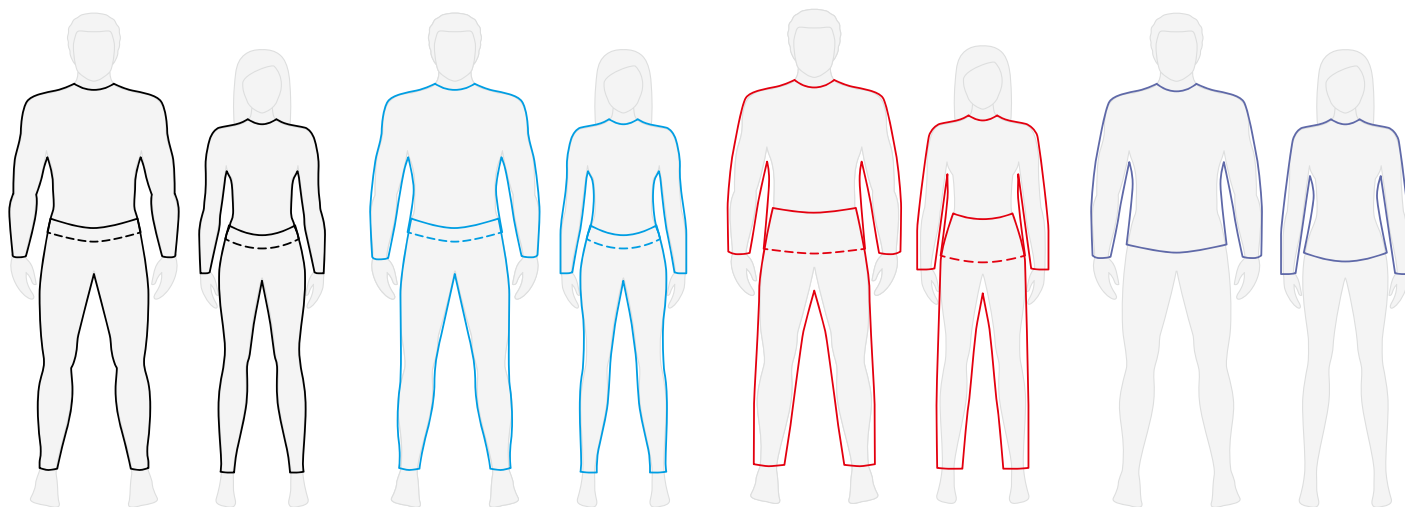

FOR PANTS, TOPS AND JACKETS

- + casual, laid-back, easy
- + straight cut
- + slight tailored cut
- + neither tight nor too loose
- + comfortable freedom of movement

MID FIT

SPECIFIC FOR TOPS

- + sporty, dynamic
- + figure-skimming
- + a little more waist size
- + more freedom of movement

TRANSTEX® INSIDE

transtex® is the functional knitting technology from LÖFFLER that has been successfully proven on the market for more than four decades. Numerous victories, buy recommendations and good grades in product tests by well-known trade magazines underpin this constantly. And we are proud of this.

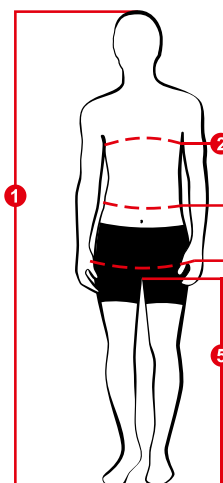

But transtex® fabrics are not only used for underwear or midlayers, they can also be found in many other LÖFFLER products. Partly in places where they have a decisive advantage for the function of the product and where transtex® can play out its well-known strengths, such as:

- + fast moisture transport to keep the body dry.
- + reliable thermoregulation to warm or, if necessary, to cool.
- + soft, pleasant feel to minimize friction.

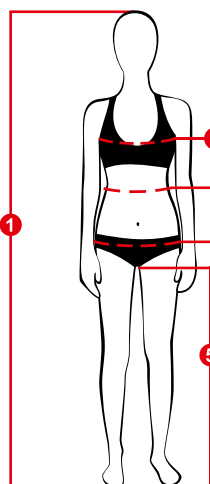

In this way, transtex® in the inner collar of a cycling jersey keeps the neck dry and protects against painful friction or uncomfortable cold.

This is why we are now labelling all of our products in which we use transtex® with transtex®INSIDE. Pay attention to this! It promises LÖFFLER quality made in Austria.

ORDER PROCESSING

PERSONAL CONTACT PERSON

Apart from your personal sales representative at LÖFFLER there is also a competent internal sales team available to answer any questions!

YOUR ORDER HOTLINE +43 77 52 / 844 21 0

24-HOURS ONLINE-ORDERSERVICE

The Retailer Online Shop is the easiest and fastest way for your orders – 24 hours a day, 7 days a week, informative and user friendly! LÖFFLER has the most important basic articles always in stock for you and in addition offers an extensive stock program.

B2B.LÖEFLER.AT

- + Log in with your **customer number** and the **password**, which we will provide upon request.
Write to web@loeffler.at
- + Search for the desired product using the article number or the **filter function**.
TIP: There is also the possibility to have only the sales prices (incl. tax) displayed. This allows you to find the right product together with your customer.
- + Place the product in your **shopping basket** and proceed to **checkout**.
PLEASE NOTE: The shopping basket is automatically emptied after approximately 3 hours!

In the B2B portal, you also have the possibility to access the **LÖFFLER MEDIA-DATABASE** directly.

There you can download current product photos, product pictograms, image photos, logos, graphics, videos, texts and much more.

Please note: For copyright reasons, image photos may only be used to promote LÖFFLER products. Any other use must be agreed in advance with LÖFFLER.

24-HOURS DELIVERY SERVICE

If your order arrives **by 11:30 am**, we will deliver to Austria and Germany within the following business day.

48-HOURS COMPLAINTS PROCESSING

Within 24 hours we will answer your complaint and provide competent information. Normally the complaint will then be professionally repaired or renewed within another 24 hours.
