HALTI

NORDIC
BY NATURE

APPAREL WORKBOOK

FALL/WINTER 2022/23

WE EXIST TO CONNECT PEOPLE WITH NATURE.

Halti is for active people who value the outdoors, who seek moments where they can connect with nature. Our brand appeals to those who appreciate natural calmness, perfect functionality and minimalism – from busy urbanites spending a few hours outdoors to the world's top professional athletes. We exist to help everyone find their own way to enjoy outdoor activities.

We are committed to the social, economic and environmental health of the communities in which we live and do business and for many years, we have been engaged in sustainability-compliant practices. Our sustainable development program is called "Think Ahead" and you will be able to read more about it in the following pages. But in short, we are Bluesign® system partner and we demand that both our new and existing subcontractors comply with the detailed bluesign® restricted substance list. All our factories are Amfori BSCI audited, which ensures fair working conditions and safeguards the rights of our subcontractors' workers. In addition, we put a lot of efforts into increasing the use of sustainable materials and material dyeing methods. State-of-the-art 3D software helps us also to significantly reduce the amount of textile waste, emissions from logistics and packaging. Our goal is to be carbon neutral in our own operations in 2022. We know that we still have much work ahead of us, but we will do our best to ensure that future generations will also be able to enjoy a clean environment.

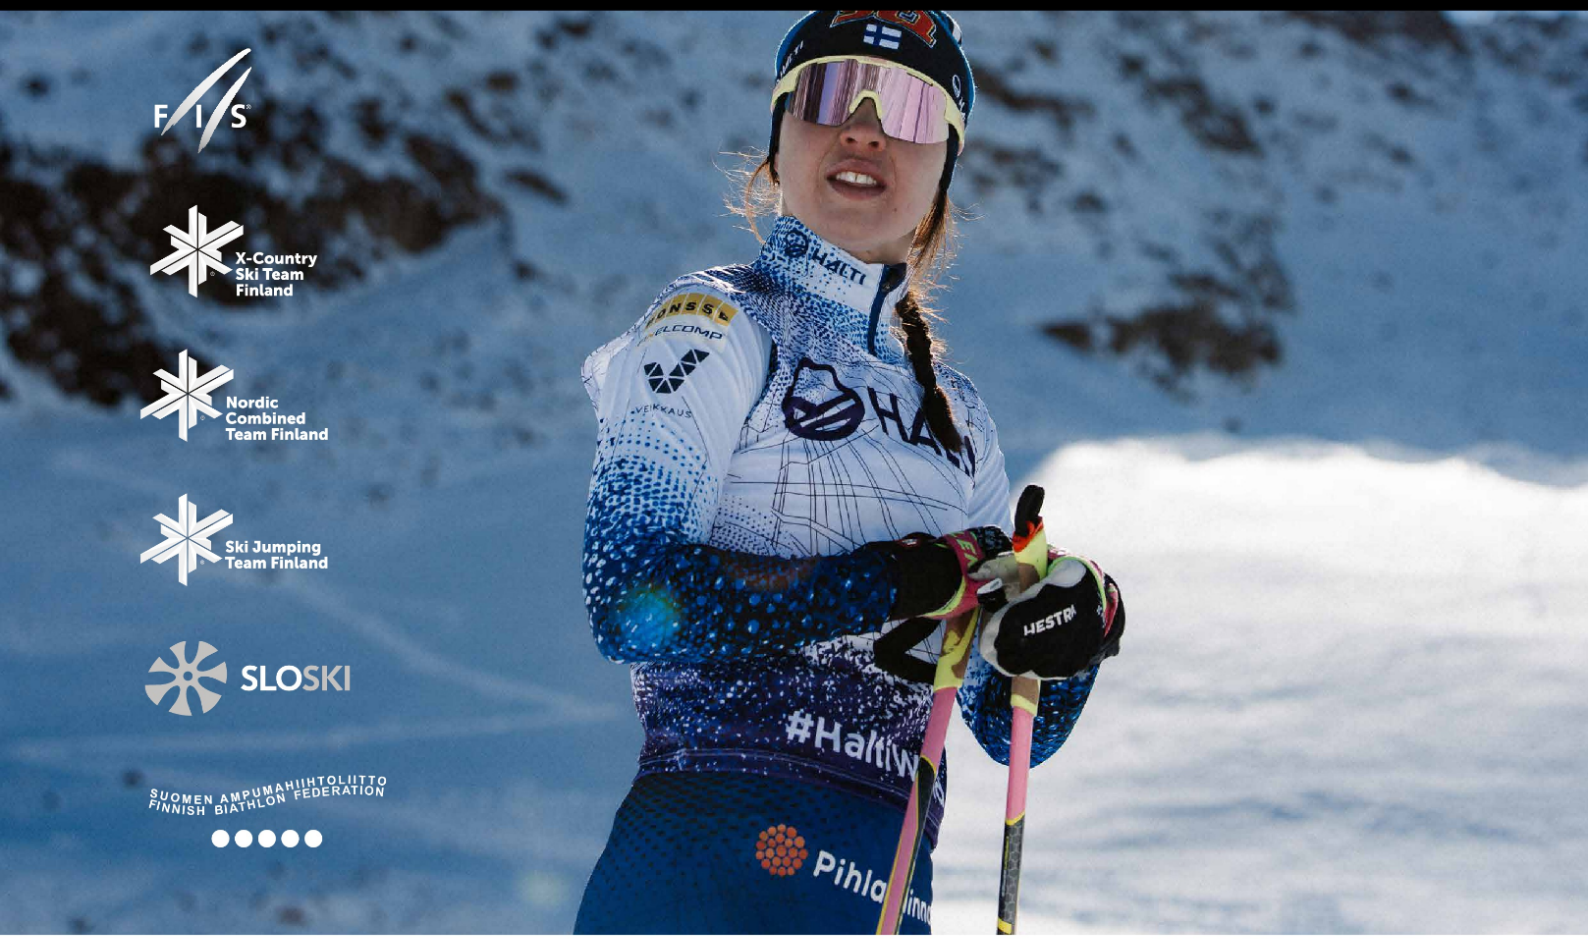
We are inspired by nature, from the simple use of raw materials to the colors and patterns that we experience in our natural surroundings. Our cultural values of simplicity and balance are an essential part of our desire to create harmony in function, ease of use and durability that culminates in timeless design. Our products are worn, tested and developed together with the world's leading athletes and outdoor professionals. In addition, our talented in-house designers, who know the customers from occasional nature lovers to top athletes, constantly monitor, identify and integrate emerging style and color trends to design new products and refresh successful lines.

We are very proud to be able to present as many as three completely new clothing lines in the FW2223 Collection: Active Sport, Ski Touring and Kallio® Urban Techwear. Thus, our wide collection contains the following categories: Outdoor, Kallio® Urban Techwear, Active Sport, Skiwear, Skitouring, Cross country, Midlayers, Baselayers and Accessories. Welcome to explore the new styles for an active day outdoors for low pulse, medium or intense training or for World Cup level competitive performance.

Breathe the outdoors and enjoy.

HALTI

Over the past 40 years we've equipped and sponsored many of the world's top athletes across all of our product categories. From the elite in various Alpine and Nordic winter sports, to adventure racers and outdoor professionals.



Halti kestävän kehityksen ohjelma

Ihmisen ja luonnon kunnioitus luovat pohjan kaikelle Haltin toiminnalle. Tuotteemme on suunniteltu luonnossa liikkumiseen ja urheiluun, ja siksi meille on tärkeää, että kannamme vastuun ympäristöllisestä, ja taloudellisesta jalanjäljestämme. Yrityksenä otamme vastuun myös ihmisten kunnioittamisesta. Tuotteemme valmistetaan sosiaalisesti ja eettisesti hyväksyttävissä olosuhteissa, toimialueidemme lakeja, asetuksia ja alan ohjesääntöjä noudattaen. Katsomme tulevaisuuteen ja teemme voitavamme, jotta jälkipolvetkin saisivat nauttia puhtaasta luonnosta. Haluamme tehdä tuotteita, jotka kestävät aikaa. We think ahead!

Ympäristövastuu

- Suunnittelemme ja valmistamme käyttöä sekä aikaa kestäviä tuotteita huomioiden ympäristövaikutukset tuotteen koko elinkaaressa.
- Olemme bluesign® system partner ja vaadimme uusia ja nykyisiä bluesign®-alihankkijoitamme noudattamaan erittäin tarkkaa rajoitettujen ainesosien listaa. Lue lisää www.bluesign.com.
- Kaikki vaatteemme ja kenkämme ovat 100% PFC-vapaita.
- Tuotteemme tehdään ihmisiä ja ympäristöä kemikaaleilta suojaavien REACH-asetusten mukaisesti.
- Emme käytä tuotteissamme aitoja eläinten turkiksia.
- Tiukkojen RDS-standardien ansiosta tuotteemme on valmistettu korkealaatuisesta ja eettisesti tuotetusta untuvasta.
- Emme hyväksy eläinten epäeettistä kohtelua kuten pakkosyöttämistä, elävien lintujen höyhennystä tai mulesing -menetelmällä tuotettua villaa.
- Käytämme suunnitteluprosessia optimoivaa 3D-mallinnusta.
- Pääkonttorimme energianlähde on 100% uusiutuvaa vesienergiaa.

Yhteiskunnallinen ja sosiaalinen vastuu

- Tuotteemme valmistetaan sosiaalisesti ja eettisesti hyväksyttävissä olosuhteissa.
- Olemme amfori BSCI-jäseniä (vuodesta 2010), jonka avulla takaamme reilut työolosuhteet ja huolehtii alihankkijoidemme työntekijöiden oikeuksista. 100% vaate- ja kenkätehtaistamme ovat BSCI-auditoituja.
- FIBS – yritysvastuuverkoston jäsenenä osallistumme aktiivisesti yhteiskunnalliseen vaikuttamiseen taloudellisesti, sosiaalisesti ja ekologisesti vastuullisen toiminnan edistämiseksi ja oman tietoisuutemme ylläpitämiseksi.
- EOG–organisaation jäsenenä osallistumme toimialamme kestävän kehityksen hankkeisiin ja saamme ensikäden tietoa toimialaamme koskevista asioista.

Tavoitteemme tulevaisuudessa

Kestävä kehitys on ollut tärkeä osa Haltin yritysstrategiaa jo vuodesta 2010. Olemme aikaansaaneet paljon, ja jatkamme yhä toiminnan kehittämistä. Myös tulevaisuudessa tavoitteemme ovat korkealla. Pyrimme seuraaviin konkreettisiin tavoitteisiin:

- Olemme omien Suomen toimintojemme osalta hiilineutraali yritys vuonna 2022.
- Lisäämme merkittävästi kierrätettyjen materiaalien käyttöä tuotteissamme.
- Käytämme pakkausmuoveissamme vain 100% kierrätettyä muovia.
- Kehitämme yritysvastuuta monipuolisesti FIBS:n ja EOG:n jäsenenä.
- Olemme bluesign® system partner ja vaadimme uusia ja nykyisiä bluesign®-alihankkijoitamme noudattamaan bluesignin erittäin tarkkoja vaatimuksia.

ECO TUOTTEEN ON TÄYTETTÄVÄ VÄHINTÄÄN YKSI SEURAAVISTA VAATIMUKSISTA:

Käytetty materiaali on bluesign® rajoitusten mukainen ●●● Se on valmistettu kierrätetystä materiaalista ●●●
Vettähylkivyyskäsittely on täysin fluorihiilivapaa ●●● Se on valmistettu orgaanisesta puuvillasta ●●●
Tuotteessa käytetty korkealuokkaista untuvaa joka on elintarviketeollisuuden sivutuote ja jäljitettävissä

Halti's sustainable development programme

Respect for man and nature is the basis of all Halti's activities. No one can ignore climate change and environmental issues anymore. Our products are designed for outdoor life and sport, and it's important for us to bear our responsibility for our environmental and economical footprint. As a company, we also take responsibility for the people by manufacturing our products in socially and ethically acceptable conditions, in compliance with the laws and regulations of the countries where we operate, as well as the guidelines of the industry. We look into the future — we think in the long term and do our best to ensure that future generations will also be able to enjoy a clean environment. We think ahead!

Environmental responsibility

- We design and manufacture durable and timeless products with the design philosophy of considering the environmental effects of the whole product life cycle.
- We are a bluesign® system partner and demand that both our new and existing bluesign® subcontractors comply with the detailed bluesign® restricted substance list.
- Our products are made in compliance with the REACH regulations, which protect people and the environment from harmful chemicals.
- We do not use real fur in our products.
- We follow the RDS standard, which means that our products are not made with feathers that are plucked from living birds.
- We do not accept the unethical treatment of animals such as forced feeding, the plucking of living birds, or mulesing method in wool production.
- We use 3D design program, which optimizes the design process.
- Our headquarters use 100% renevable water energy.

Corporate social responsibility

- Our products are made in socially and ethically acceptable conditions.
- Since 2010, our procurement operations have been guided by our membership of the Business Social Compliance Initiative (amfori BSCI), which guarantees fair working conditions and safeguards the rights of our subcontractors' workers. 100% of our clothing and shoe factories are BSCI-audited.
- As a member of amfori BSCI, we actively exert our influence to promote economically, socially and ecologically responsible operations and maintain our awareness of these issues.
- As a member of the EOG, we take part in sustainable development projects in our industry and obtain first-hand information about matters relevant to our sector.

Our future aim

Since 2010, sustainable development has been an important element of Halti's business strategy. A lot has been done already, but we are continuously improving our activities and will continue to aim high. These are our concrete targets in the near future:

- We will be a carbon neutral company by our own operations in 2022.
- We are significantly increasing the use of recycled materials in our products.
- We will use 100% recycled plastic as packaging materials.
- We are improving our corporate responsibility in diverse ways as a member of EOG.
- As a bluesign® system partner we demand our new and existing bluesign® subcontractors to comply with the bluesign®'s detailed list of restricted substances.

ECO PRODUCT FEATURES MINIMUM ONE OF THESE QUALITIES:

Product received the ECO label when; Fabric used is certified bluesign® approved
It is produced of recycled material · The WR treatment is fluorocarbons free · It is made of organic cotton
It is made of high-quality down from strictly controlled suppliers, where the down is a by-product of food production

Olethan ystävällinen ja huomioit etteivät ns. neon värit printtaudu oikeansävyisinä. Neon värit ovat merkattuna kirjaimella N.
Huomioitavaa on myös, että neon väriset vaatteet voivat haalistua sekä värjätä muita vaaleampia materiaaleja.
Kirjain M tuotteen värikoodin lopussa tarkoittaa materiaalin olevan meleerattu.
Haltin untuvatuotteissa käytämme sertifioitua untuvaa. Vaatteiden päälli- ja vuorikankaiden osalta untuvat voivat kuultaa läpi.

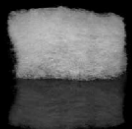
Please notice, that the "neon" colours as a print do not appear as bright as they should. Neon colours are marked with the letter N. Please notice also, the neon colours in clothing may fade and transfer on to other light-coloured materials.
Material is melange when letter M exists at the end of colour code.
We use only certificated down in our down items. With light coloured outer and lining materials down/feather can be visible.

SUSTAINABLE WARMTH
IN THE COLDEST HUMID CONDITIONS

Technical and ecological paddings which are produced by high standards using recycled materials. Paddings are extremely light weight and they can maintain high heat ratio even when wet. As padding is water repellent and extremely breathable, it is suitable for really high activity, in cold and wet circumstances.

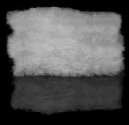
microtherm® THERMOFILL

This super soft down like filling contains small fiber clusters that are blowed into filling. This way fibers creates uneven structure that can capsule a lot of air inside and makes it very warm and lightweight.



microtherm® ARCTY®

With extra fine and soft fibers this filling creates lofty feeling and super warm result. Many layers of fine fibers can capsule air very effectively and thus can be used in the coldest conditions.



microtherm® DYNAMIC

Enough warmth and technical functionality is key to this dynamic filling. Overlapping fibers creates stretchable structure that capsules air even with slim structure. Works perfectly with stretchable outshells.

OUTDOOR

The Halti Outdoor Collection is our heritage and soul. The great ambition to design and develop versatile outdoor products for every user to be able to connect with nature has been our driving force through all these years. Respecting the nature, and passion to keep it unchanged to the next generations, is our foundation. We put a lot of efforts into using sustainable materials and material dyeing methods. And all our DWR treatments are PFC-free.

064-0422 **Kaarna W DX Nano 3L jacket**

KALLIO® - URBAN TECHWEAR

This is our first Kallio® Urban Gender Neutral Techwear collection. With the Kallio clothing line, we really wanted to bring the high functional intelligence of Halti beyond the outdoor environment and bring this innovative spirit to the city. Kallio® offers a new ultimate and gender neutral solution - combining sustainable timeless minimalistic urban design and functional purpose. Kallio is designed to simplify the way you dress, each piece is rooted in technicality, patterned for ease of movement and protection against Fall's wettest and Winter's coldest days.

Kallio® is also the clothing of the future, a promise that technology can get more from our clothes. The future might be uncertain, but one thing isn't: today's clothing innovations will affect us all down the line. Therefore, this collection line is also our most sustainable one and designed with the end in mind.

ACTIVE SPORT

This is our first Active Sport collection – our high pulse biking and running clothing line. With this clothing line we really wanted to bring the high functional intelligence of Halti into the biking scene. The focus is on apparel with thermoregulated breathability, body mapped fit for bikers and runners, lightweight weather protection and 360º visibility even during the darkest, windiest, and wettest Autumn and Winter days. In our Active Sport collection, we use recycled and vegan-friendly materials. And all our DWR treatments are PFC-free.

CROSS COUNTRY

The Halti Cross Country clothing line caters world's top athletes as well as every sports enthusiast. We have built our expertise in the course of our history by working with numerous snow sport professionals. The feedback from the athletes is the key in creating technical styles.

Skate and classic country skiing on trails and tracks in beautiful winter sceneries serve as inspiration for our Cross Country Skiing or multisport collection. This clothing line offers thermoregulated breathability and protection from wind, water and snow suitable for beginners to professionals no matter of intensity of the activity, skill level, age or outside temperature. This versatile collection is suitable for many active outdoor activities, but foremost for cross country skiing and running with focus on top performance, stylish look and sustainable materials.

088-0138 **Wayfar M Power air hybrid layer jacket**

P99 Black P99 Black

Hybrid layer jacket features Polartec® Power Air™ fabric which is a new revolutionary knit construction that encapsulates air to retain warmth and reduce microfiber shedding. The result is a performance fabric with advanced thermal efficiency that sheds up to 5x less than other premium mid-layer fabrics. Windproof and lightly insulated upper torso provides extra shield againts wind and coldall year round. 5x less microplastic shedding means also that jacket retains it´s properties year after year. Good for you and the environment. It is Halti's ECO-product due to Polartec® Power Air™ and recycled fabrics.
